

Project Development Phase

Setting up application environment

Creating SendGrid Account

TEAM ID : PNT2022TMID07953

PROJECT NAME : SKILL/JOB RECOMMENDER

The screenshot shows a web browser window with the URL `app.sendgrid.com/guide`. The browser's tab bar shows three tabs: 'IBM Cloud', 'Inbox (3,887) - mail2himaraj@gmail.com', and 'SendGrid'. The SendGrid page has a light blue header with the user's name 'HIMA VASINI MUNI' and a dropdown arrow. A sidebar on the left contains navigation links: 'Dashboard', 'Email API', 'Marketing', 'Design Library', 'Stats', 'Activity', 'Suppressions', 'Settings', and 'Twilio SMS NEW'. The main content area features a large blue banner with the text 'Welcome, HIMA VASINI!' and 'To get up and running quickly, please follow the steps outlined below.' Below this is a blue box with the text 'Send your first emails with Twilio SendGrid'. The main section is titled 'Create a sender identity' and includes the text: 'Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.' There are two buttons: 'Create a Single Sender' (blue) and 'Authenticate a domain instead' (light blue). To the right, there is a diagram showing an email header: 'Your Business <jane.doe@your_business.com>' with a blue arrow pointing to the email address. Below the diagram, it says 'Activate Windows Go to Settings to activate Windows.' At the bottom of the page, there is a footer with the text 'Send your first email' and 'Please create a sender identity before sending your first email.' The Windows taskbar is visible at the bottom, showing the time as 09:01 PM on 02-11-2022.
